

LYSNO HIGHBAY : Compact all-rounder

LYSNO HIGHBAY

The Lysno HighBay is the ideal solution for your production and warehouse area. Due to its high output the Lysno HighBay can illuminate high ceiling workstations properly. You will experience a more pleasant light image compared to conventional fixtures, while the Lysno HighBay uses a fraction of the wattage. The HighBay's are available in 10.000 lm (100 Watt) and 15.000 lm (150 Watt), which means that there is a Lysno HighBay for every ceiling height. The Lysno Easy Install reassures you from a easy installation compared with the heavy fixtures with energy consuming ballasts. Therefore we have 3 different mounting options. The clever design of the Lysno HighBay also ensures that the heat in the lamp remains very low, which is favorable for lifespan.

**5 years
warranty**

**Made in
NL**

Industry

**50.000
hours**

Characteristics

- Directional light
- Up to 70% on energy savings
- Same light output at all ambient temperatures
- No lamp replacement for a long period
- Safe mounting
- High output
- No mercury
- Instant start with 100% light level
- Life span > 50.000
- Compact Design
- Insensitive to frequent switching (IR)

Application

- Suitable for applications
 - spaces with greater height
 - flexible installations
 - low temperatures
- Transportation and Distribution
- Storage space / Warehouse
- Production environments
- Cold storage

Technical Specifications

Lamptype	HigBay
Body Color	Black
Dimensions	352 x 352 x 147 mm
Weight	3,8 kg
Power	100 Watt, 150 Watt
Supply Voltage	90-265V
Frequency	50/60 Hz
Lumens (lm)	10.000 Lm, 15.000 Lm
Efficacy (lm/W)	>100 lm/W
Power Factor (cos phi)	> 0,97
Dimmable	-
CRI	> 83
Color Temperature	4000K, 5500K
Window	50°
Material	ABS, aluminium
Application environment	Indoor / Outdoor
Safety class	IP65
Operating temperature	-10 C° / +40 C°
CE (LVD, EMC, RoHs, ERP, WEEE) inspected	TUV
HACCP	Yes
Life expectancy at 25°	50.000 hours
Warranty	5 years
